

# Number Day 2026!

To celebrate Numbers Day 2026, all classes took part in a special maths lesson on Friday 6th February, focused on developing number skills through a range of fun, practical and engaging activities. Throughout the day, children explored numbers through games, stories, problem-solving and creative activities. All learning was adapted to suit the needs and abilities of the children, ensuring that everyone took part in a way that felt accessible, enjoyable and meaningful.

On Numbers Day, children were welcome to come to school dressed in numbers if they wanted to and those who did looked wonderful!
